

International Recognition Awards

January 12, 2005

In Recognition for his contributions to the international electronics industry, on the occasion of his 60th “geburstag”, the Board of Directors has caused this Declaration of Sincere Appreciation and Thanks to be given to:

***Prof. Dr. Herbert Reichl
Fraunhofer IZM***

As you celebrate your 60th “geburstag” and as NEMI becomes iNEMI, we wish to recognize the contributions that you have made to the international electronics industry through your personal research and through the research programs that you have established with the electronics industry throughout the world. You have provided vision as to the future direction of the industry, and the research and training to achieve that vision in the areas of electronics packaging, electronics manufacturing, and green electronics. With your technical and management skills you have provided global leadership.

In recognition for his contributions to the 2004 iNEMI Roadmap, the Board of Directors has caused this Declaration of Sincere Appreciation and Thanks to be given to:

Dipl.-Phys. Rolf Aschenbrenner
Fraunhofer IZM
Technical V.P. of IEEE CPMT Society

With your technical and management skills, you guided technology experts from the IEEE CPMT Society to provide global input to the first international edition of the iNEMI Roadmap. Primarily as a result of this effort, representatives from eleven countries participated in the 2004 iNEMI Roadmap. We are confident that future editions will see even greater international participation as we project the needs of the global electronics industry.
